

KLOVE is an amazing station. I feel that it serves the public in many ways. It uplifts my spirits and the music is positive. Where half the stations in this area curse and the music is disgusting. I feel that I am nearer to God when I listen to the station. The public needs a station like in this in this time and age when 10 year olds are starting to have sex and babies. Please leave this station be. I need it....it's a part of my daily life.
